

Re: LPFM priority over FM translator services and possible loss of national and regional services like K-LOVE radio. This would be a great loss to the community, as programs like K-LOVE promote positive values that are encouraging to listeners. K-LOVE supports local ministries and charitable organizations that are important resources to many in the community. It's clean, wholesome radio that is edifying and uplifting. With all the garbage on the airways, we need programs like K-LOVE. The listener base of K-LOVE and other programs like it that are listener-supported proves their is strong community interest in this programming. Personally, I listen to K-LOVE more than any other station and would find the loss of such programming extremely disappointing. K-LOVE helps me through the day. Please do not allow LPFM stations the power to rob us of programming the community loves and supports. Respectfully, Doris Haubner
